<p>8/1/2017 01:47(UTC-5) From: +13094021494 Receiving Trunk Priority: Incoming</p>	<p>Subject: No subject Body: Yes too much. As in your a psychopath that is doing this this to me because of what other people tell you  I don't know why I can't say what I know, without having to live in fear of someone threatening me with ERPO or threatening to kick me out of the apartment.  You and these people want to get an fucking butt hurt because I'm not brutally honest with you, so you can not live here. But then when I'm brutally honest with you, you don't like that either, by to manipulative and control my life.  So you can do all this with these fucking people, because your fucking bull but that I can't tell you the whole story the past few years. The thing is, you would have been even more bull but, and I would have lost my job, because I chose to tell you about my personal life.  I don't have to tell you about my personal life, and you don't have to tell me the truth either.  The difference is, I wasn't asking anyone by revealing some of the truth. You are actively attacking me, manipulating others, and then being dishonest about doing it.  If I have got proof, and I will if you are doing this, then I will be pressing criminal charges against you. As well as everyone else who was involved in this. I will also be suing for punitive damages, among many other things, for you and these other people threatening from me, and wasting my time.  Unlike you, I'm going the right way, in a court of law. A court where someone has the right to defend themselves, all well as their sanity.  If you get but not over the fact that I believe this, and tell you the truth about it, then I guess I'll have to accept the consequences.  I'd like to be able to finish my Inverilan patients, and commonly consider before taking another you. I'm not saying this will not me arrested and imprisoned soon, or kicked out before I can accomplish that, but then I'll just add that to the black space that houses everything that you've done to destroy my life.  I really believe that you, and these people who are doing this, could in fact be the crowd of a psychopath. I don't say that to insult you, but only to make you more aware of how you are treating others around you.  I've been severely persecuted by this person, and I'm severely persecuted day after day. I was already severely persecuted in the past, and now I'm forced to relive that with someone new, because of people who help facilitate it happening, like you.  You told my hopes and dreams out as a kid. You were more concerned about how you appeared to other people, than to what I was as a person growing up. You told my heart for the slice of bread it would gain you in our family, and in our church. I had to bring it out on my own, after you beat me down in meeting. Only is had that we are here at the cross roads again, and you choose to tell my patient again, for another slice of bread. For my friend of many.  You've done a lot of good things that I'm grateful for dad. You always provided for us, and put food on the table. I don't hate you for anything that you've done. I only hate the actions that you take, and the way in which I'm harassed by it. I won't be abused anymore by anyone. So whatever I have to do, to avoid that. I will do.</p>	<p>Status: Read Priority: Low</p>

You wouldn't tell me what was going on, and you had this moony look on your face. These people told me that you guys signed a non disclosure agreement, to hide it from me. If your helping them, please stop no matter what it cost you. I don't think you fully realize what these people have been doing to me.
Incoming			5/23/2017 20:23(UTC-5)	From: +13094021494 Reinking Travis	It got to the point where I was going to kill myself, and one night I had a dream that Robin Williams appeared to me in a dream, and told me "it's not true, they are just saying that". I think that was the only thing that kept me from killing myself, because these people kept making up lies, and I didn't know what was true. These people tried to kill me.
